UltraPRO Products Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Revision date: 09/29/2015 Supersedes: 09/01/2011 Version: 1.0

SEC	FION 1: Identification of	the substance/mixture and of the company/undertaking	
1.1.	Product identifier		
Produc	ct name	: UltraPro Premium Ice Melter with Instaheat	
Produc	ct form	: Mixture	
1.2.	.2. Relevant identified uses of the substance or mixture and uses advised against		
Use of	the substance/mixture	: Ice Melter/De-Icer	
1.3.	Details of the supplier of the	ne safety data sheet	
PO Bo Plums	RO Products x 195 teadville, PA 18949 57-2839		
1.4.	Emergency telephone num	iber	
Emerg	ency number	: 215-857-2839	
SEC	FION 2: Hazards identifie	cation	
2.1.	Classification of the substa	ance or mixture	
GHS-U	JS classification		
2.2.	Label elements		
GHS-U	JS labelling		
No lab	elling applicable		
2.3.	Other hazards		
No add	ditional information available		
2.4.	Unknown acute toxicity (G	HS-US)	
	a available		

No data available

SECTION 3: Composition/information on ingredients

3.1. Substance

Not applicable

3.2. Mixture

Name	Product identifier	%	GHS Classification
Contains no hazardous ingredients at levels requiring disclosure by the OSHA Hazard Communication Standard (29 CFR 1910.1200).		100	
Sodium chloride	(CAS No) 7647-14-5	Proprietary	Not classified
Calcium chloride	(CAS No) 10043-52-4	Proprietary	Acute Oral Toxicity 4, Eye Irritant 2A
Potassium chloride	(CAS No) 7447-40-7	Proprietary	Not classified
Acetic acid, calcium magnesium salt	(CAS No) 76123-46-1	Proprietary	Not classified
Proprietary Ingredient	Trade Secret	Proprietary	Not classified
Magnesium chloride, hexahydrate	(CAS No) 7791-18-6	Proprietary	Not classified

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general	: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.	
First-aid measures after inhalation	: IF INHALED: Remove to fresh air and keep at rest in a comfortable position for breathing.	
First-aid measures after skin contact	: IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes.	
First-aid measures after eye contact	: IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Continue rinsing.	
First-aid measures after ingestion	: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention if you feel unwell.	
4.2. Most important symptoms and effect	ts, both acute and delayed	
Symptoms/injuries after inhalation	: May cause respiratory irritation.	

Illtro Dro Dromium Ioo Moltor with Instaboot

Protection during firefighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel : Wear Protective equipment as described in Section 8. Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders :	Symptoms/injuries after skin contact	: May cause skin irritation.
4.3. Indication of any immediate medical attention and special treatment needed No additional information available. SECTION 5: Firefighting measures 5.1. Extinguishing media : Dry chemical. Foam. Water spray. Sand. Unsuitable extinguishing media : None known. 5.2. Special hazards arising from the substance or mixture Fire hazard : No data to indicate that product is flammable. Explosion hazard : Product is not explosive. Reactivity : Product is hygroscopic and may give off heat while dissolving. 5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protect SECTION 6: Accidental release measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel : Evacuate unnecessary personnel. Protective equipment : Wear Protective equip	Symptoms/injuries after eye contact	: Direct contact with the eyes is likely to be irritating.
No additional information available. SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media Suitable extinguishing media Insuitable extinguishing media Special hazards arising from the substance or mixture Fire hazard : No data to indicate that product is flammable. Explosion hazard : Product is not explosive. Reactivity : Product is hygroscopic and may give off heat while dissolving. 5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protect SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1. For non-emergency personnel : Wear Protective equipment as described in Section 8. Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1. For emergency responders	Symptoms/injuries after ingestion	: May cause gastrointestinal irritation.
5.1. Extinguishing media Suitable extinguishing media : Dry chemical. Foam. Water spray. Sand. Unsuitable extinguishing media : None known. 5.2. Special hazards arising from the substance or mixture Fire hazard : No data to indicate that product is flammable. Explosion hazard : Product is not explosive. Reactivity : Product is hygroscopic and may give off heat while dissolving. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protect SECTION 6: Accidental release measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied <th>•</th> <th>edical attention and special treatment needed</th>	•	edical attention and special treatment needed
Suitable extinguishing media : Dry chemical. Foam. Water spray. Sand. Unsuitable extinguishing media : None known. 52. Special hazards arising from the substance or mixture Fire hazard : No data to indicate that product is flammable. Explosion hazard : Product is not explosive. Reactivity : Product is hygroscopic and may give off heat while dissolving. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective spectrum and the mergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 61.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	SECTION 5: Firefighting measur	res
Unsuitable extinguishing media : None known. 5.2. Special hazards arising from the substance or mixture Fire hazard : No data to indicate that product is flammable. Explosion hazard : Product is not explosive. Reactivity : Product is hygroscopic and may give off heat while dissolving. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protect SECTION 6: Accidental release measures 6.1. General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel : Wear Protective equipment as described in Section 8. Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied <td>5.1. Extinguishing media</td> <td></td>	5.1. Extinguishing media	
5.2. Special hazards arising from the substance or mixture Fire hazard : No data to indicate that product is flammable. Explosion hazard : Product is not explosive. Reactivity : Product is hygroscopic and may give off heat while dissolving. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective Section 8: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	Suitable extinguishing media	: Dry chemical. Foam. Water spray. Sand.
Fire hazard : No data to indicate that product is flammable. Explosion hazard : Product is not explosive. Reactivity : Product is hygroscopic and may give off heat while dissolving. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 6.1. 6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	Unsuitable extinguishing media	: None known.
Explosion hazard : Product is not explosive. Reactivity : Product is not explosive. 5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protect SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1. For non-emergency personnel : Wear Protective equipment as described in Section 8. Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1. For emergency responders : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	5.2. Special hazards arising from the	he substance or mixture
Reactivity : Product is hygroscopic and may give off heat while dissolving. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 6.1. General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	Fire hazard	: No data to indicate that product is flammable.
5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment, including respiratory protective equipment and emergency procedures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1. For non-emergency personnel Protective equipment Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective clothing, gloves and eye or face protection. Approved supplied	Explosion hazard	: Product is not explosive.
Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 61. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 61.1. For non-emergency personnel Protective equipment Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 61.2. For emergency responders : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	Reactivity	: Product is hygroscopic and may give off heat while dissolving.
chemical firé. Do not dispose of fire-fighting water in the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel Protective equipment Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	5.3. Advice for firefighters	
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	Firefighting instructions	: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment.
6.1. Personal precautions, protective equipment and emergency procedures General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	Protection during firefighting	: Do not enter fire area without proper protective equipment, including respiratory protection.
General measures : Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate Keep upwind. 6.1.1. For non-emergency personnel . Wear Protective equipment as described in Section 8. Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders . Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	SECTION 6: Accidental release	measures
6.1.1. For non-emergency personnel Protective equipment : Wear Protective equipment as described in Section 8. : Emergency procedures 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	6.1. Personal precautions, protecti	ve equipment and emergency procedures
Protective equipment : Wear Protective equipment as described in Section 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	General measures	equipment and full chemical protective gear (see Section 8). Evacuate area. Ventilate area.
Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	6.1.1. For non-emergency personnel	
6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied	Protective equipment	: Wear Protective equipment as described in Section 8.
Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplie	Emergency procedures	: Evacuate unnecessary personnel.
	6.1.2. For emergency responders	
	Protective equipment	: Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency.

6.2. **Environmental precautions**

Avoid release to the environment. Prevent entry to sewers and public waters.

6.3. Methods and material for containment and cleaning up

For containment	: Contain and collect as any solid. Prevent entry to sewers and public waters.	
Methods for cleaning up	: Sweep up loose material. Place residues in suitable, covered, and labeled container. Dispose of material in compliance with local, state, and federal regulations.	

Reference to other sections 6.4.

No additional information available

SECTION 7: Handling and storage

7.1.	Precautions for safe handling		
Precautions for safe handling		Do not handle until all safety precautions have been read and understood. Use appropriate personal protection equipment (PPE). Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. If diluting, the heat developed during diluting or dissolving is very high. Use cool water (less than 80°F) and add material to water.	
7.2.	Conditions for safe storage, in	cluding any incompatibilities	
Storage	e conditions	: Keep container tightly closed. Store in a dry, cool and well-ventilated place. Protect from atmospheric moisture.	
Incompatible materials		: Moisture. Refer to Section 10 on Incompatible Materials.	
Storage area		: Store in a well-ventilated place.	

SECTION 8: Exposure controls/personal protection

8.1. **Control parameters**

Not applicable.

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

8.2. Exposure controls Appropriate engineering controls : Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas. Personal protective equipment : Protective goggles. Gloves. Protective clothing. Use gloves chemically resistant to this material when prolonged or repeated contact could Hand protection 2 occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. : Use eye protection suitable to the environment. Avoid direct contact with eyes. Eye protection Skin and body protection : Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure. Respiratory protection Use NIOSH-approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or ÷ other applicable OELs, use NIOSH-approved respiratory protective equipment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and c	hemical properties
Physical state	: Solid
Appearance	: Green colored crystals with pellets and flakes.
Color	: Green.
Odor	: No data available
Odor Threshold	: No data available
рН	: No data available
Relative evaporation rate (butylacetate=1)	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapour pressure	: No data available
Relative vapour density at 20 °C	: No data available
Relative density	: No data available
Solubility	: No data available
Log Pow	: No data available
Log Kow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosive properties	: No data available
Oxidising properties	: No data available
Explosive limits	: No data available
9.2. Other information	

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

Product is hygroscopic and may give off heat while dissolving.

10.2. Chemical stability

Stable.

10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

10.4. Conditions to avoid

Contact with certain metals.

10.5. Incompatible materials

Sulfuric acid. Metals may corrode in aqueous calcium chloride solutions. Avoid contact with brass, steel, aluminum, ferrous metals or alloys thereof. Leather clothing and shoes may be damaged by calcium chloride. Strong oxidizing agents.

10.6. Hazardous decomposition products

Reacts slowly with (some) metals: release of highly flammable gases/vapours hydrogen. Product attracts moisture and gives off heat while dissolving. May produce toxic and noxious fumes under extreme fire conditions. Strong oxidizing agents will release chlorine. Liberates chlorine upon thermal decomposition.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity	:	Not classified
Skin corrosion/irritation	:	Not classified
Serious eye damage/irritation	:	Not classified
Respiratory or skin sensitisation	:	Not classified
Germ cell mutagenicity	:	Not classified
Carcinogenicity	:	Not classified
Reproductive toxicity	:	Not classified
Specific target organ toxicity (single exposure)	:	Not classified
Specific target organ toxicity (repeated exposure)	:	Not classified
Aspiration hazard	:	Not classified
Symptoms/injuries after inhalation	:	May cause respiratory irritation.
Symptoms/injuries after skin contact	:	May cause skin irritation.
Symptoms/injuries after eye contact	:	Direct contact with the eyes is likely to be irritating.
Symptoms/injuries after ingestion	:	May cause gastrointestinal irritation.

SECTION 12: Ecological information

12.1. Toxicity Ecology - general Based largely or completely on data for major components: this material is practically non-toxic to aquatic organisms on an acute basis (LC50 greater than 100 mg/L in most sensitive species). 12.2. Persistence and degradability No additional information available 12.3. **Bioaccumulative potential** No additional information available 12.4. Mobility in soil No additional information available 12.5. Other adverse effects No additional information available **SECTION 13: Disposal considerations** 13.1. Waste treatment methods Waste treatment methods Do not discharge to public wastewater systems without permit of pollution control authorities. No discharge to surface waters is allowed without an NPDES permit. Waste disposal recommendations Dispose of in accordance with local/national regulations. Do not allow the product to be released into the environment.

SECTION 14: Transport information

In accordance with DOT Not hazardous for transport Additional information Other information

: No supplementary information available.

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Transport by sea

No additional information available

Air transport

No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

UltraPro Premium Ice Melter with Instaheat

All chemical substances in this product are listed in the EPA (Environment Protection Agency) TSCA (Toxic Substances Control Act) Inventory or are exempt None

SARA Section 311/312 Hazard Classes

15.2. International regulations

CANADA

No additional information available.

15.3. US State regulations

California Proposition 65

This product does not contain any substances known to the state of California to cause cancer and/or reproductive harm

SECTION 16: Other information		
Revision date	: 09/29/2015	
Other information	: Author: ZPT.	
NFPA health hazard	: 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.	
NFPA fire hazard	: 0 - Materials that will not burn.	
NFPA reactivity	: 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.	
NFPA specific hazard	: W - Unusual reactivity with water. This indicates a potential hazard using water to fight a fire involving this material. When a compound is both water-reactive and an oxidizer, the W/bar symbol should go in this quadrant and the OX warning is placed immediately below the NFPA diamond.	
HMIS III Rating		
Health	: 1	
Flammability	: 0	
Physical	: 0	
Personal Protection
